EXPERIENCE

LiveStack, San Francisco, CA — *Software Engineer Intern*

Mar 2020 – Apr 2020

- Built client-side user and creator sign up and sign in form flow components in React. Utilized Formik and Yup for form validation and error checking.
- Connected creator dashboard to the server-side, utilizing axios, PSQl, and Express to display past/future events and users that have signed up.
- Added client-side error handling utilizing React Error Boundaries and customized component error handling for server-side 500 errors.
- Created header navigation bar for managing site wide navigation, login/logout, and returning to home page functionality in React.

First Republic Bank, San Francisco, CA — *Credit Specialist*

Oct 2015 - Sep 2018

- Handled underwriting student loan refinance and HELOC requests.
- Conducted detailed analysis of personal/business financial statements and tax returns for identifying borrower's credit worthiness.
- Trained newly hired analysts.

Wells Fargo, Billings, MT — *Credit Analyst*

Nov 2014 – Oct 2015

- Responsible for \$50K-\$5M+ credit requests.
- Analyzed and spread financial statements and tax returns for underwriting review. Maintained consistent record of excellent spread reviews.
- Interfaced with business banking teams when requesting documents and clarified information when performing financial reviews.

EDUCATION

Rithm School, San Francisco, CA

Jan 2020 - Apr 2020

14th Cohort | Full Stack Software Engineering Program

University of California Santa Cruz, Santa Cruz, CA

B.A., *Environmental Studies/Economics*
